

Research Summary

Generated: 2026-02-24T11:54:06.635806

Summary

Based on the provided summary of Document 1, here are the key points:

- * RAG-Ex is a tool that improves transparency in retrieval-augmented generation pipelines.
- * It tracks various stages of query processing, retrieval, relevance scoring, and response generation.
- * RAG-Ex highlights source documents and evidence attribution to reduce hallucinations.
- * The tool has use cases in multiple industries, including:
 - + Enterprise
 - + Healthcare
 - + Legal research
 - + Education

No specific findings or conclusions are mentioned in the summary.
