EXPERIENCE

Software Development Engineer 1 (Frontend)

August 2024 - Present

CARS24

Gurgaon

- Built an internal **RAG-based search tool** (Django + embeddings) helping New-Car teams quickly access product, pricing, and launch documents, reducing manual search time by **70%**.
- Integrated a **React lead-generation form** into the PHP-powered Team-BHP platform, opening a new acquisition channel and contributing to a **30–40% MoM** revenue lift.
- Integrated the **CARS24 global header & footer (micro-frontend)** across New-Car pages for consistent UX and easier multi-team integration.
- Delivered key surfaces including the **Search Flow, Compare Bikes Flow, Colors, Images, and Videos Listing**, using a flexible **widget-driven CMS** architecture.
- Ran **A/B tests** on UI variations for search listing pages, improving user engagement and click-through consistency across flows.
- Reduced JS bundle size by **70%** with code splitting, lazy loading, and dependency cleanup, improving **LCP, CLS, INP, and TBT**.
- Improved **frontend security** through input sanitization, safer API handling, and XSS prevention.
- Automated Renault lead-form workflow** using Playwright, removing manual data entry and speeding up sales operations.
- Used **Cursor, GitHub Copilot**, and internal AI tools to speed up development and refactor code efficiently.

Software Development Engineer 1 (Frontend)

January 2023 - July 2024

GeeksforGeeks

Noida

- Improved post search performance by **30%** using DFS optimization and added keyword-highlighting for better UX.
- Contributed to the **"My Sprint"** feature enabling personalized DSA preparation lists.
- Added a **hashtag plugin** to the lexical-dev editor to improve content creation.
- Built **"Copy Link"** sharing for posts, improving engagement.
- Delivered community **Job Apply** functionality which increased weekly user following by **50%**.
- Created and optimized **email templates** used across campaigns reaching **50,000+ users**.

Software Development Intern

Jul 2022 - Aug 2022

Nagarro

Delhi

- Implemented core flows including **authentication, cart management, and checkout** for an e-commerce module.

SKILLS

Languages	JavaScript, TypeScript, C++, HTML, CSS
Frontend	React.js, Next.js, Redux, Zustand, Tailwind CSS, Webpack, SCSS, Storybook, Widget-driven UIs, Micro-frontends, Responsive Design, Antd, Semantic UI
Backend / AI	Django (internal tools), RAG Pipelines, Chroma/FAISS, Python, OpenAI APIs
AI Tools	Cursor, GitHub Copilot, Codeium
Security	XSS Prevention, Input Sanitization, CSP Basics
Testing	Playwright, Lighthouse, Chrome DevTools, Web Vitals
Other	SQL, MySQL, REST APIs, Git, Postman, PWA, Docker, Figma

EDUCATION

Bachelor of Technology (IT), Bharati Vidyapeeth's College Of Engineering (GGSIPU)

2019 - 2023

Relevant Coursework: C, Data Structures, Computer Networks, and OS

CGPA: 8.22
